## CONNECT™ BY ANCHOR – SOCIAL DISTANCING BARRIER

If you're needing to add maximum protection to a classroom, conference table, desk, receptionist area or any other small area then the Porta-Shield Connect™ was designed with you in mind. It features a clear vinyl barrier that can extend off the surface allowing you to talk to your neighbor with the assurance you are both safe. The Connect is customizable to your needs. Connector clamps and mounting brackets can be utilized in an number of ways.

Porta-Shield Connect™ comes in a variety of sizes to ensure that you have the best divider for your space. Sizes ranging from 15" x 30" to 24" x 48". The Connect™ was designed to sit on desks, counters, tables, ledges, workspaces and everything in between.

This virtually break-proof design will not crack, split or chip making one of the top sellers on the market.

### Connector Clamps

These clamps are great when attaching two or more Porta-Shields Connects™ together. Every Connect set includes four clamps.

### Mounting Bracket

The mounting bracket gives you numerous ways to attach the Porta-Shield Connect to a wide variety of surfaces without drilling holes into desk or counter tops.

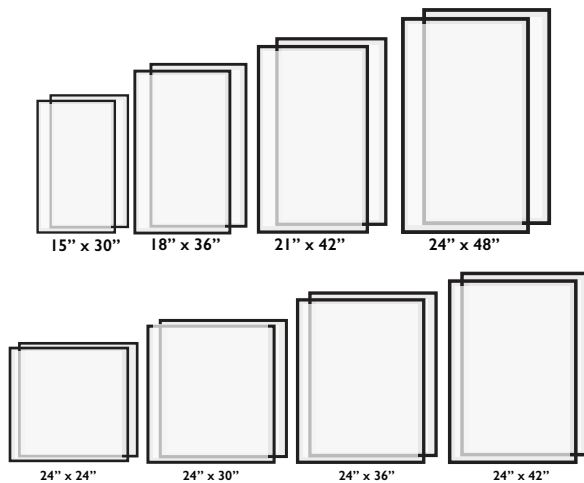

### Table Stabilizer

Snap the Porta-Shield Connect™ into the stabilizer when extra stability is needed. Set of two with adhesive on back can be purchased.

### PORTA-SHIELD CONNECT FEATURES & BENEFITS:
