Colleges and Universities around the United States are preparing to reopen. We are here to help the transition into the "new normal" as smooth as possible.

After all, the nation has recently been reminded just how vital schools really are.

After endless meetings, shifting our production from tents to social barrier products, along with teaming up with a few large universities we know what you will need come August.

We want you to open school as planned with the reassurance that students, teachers and faculty will be as safe as possible.

Our number one concern here at Anchor is keeping the spread of Covid-19 down, while supplying the schools with everything they need to feel safe, but not isolated.

LARGE Teacher and student protection

LARGE Porta-Shields™ are perfect for hallways

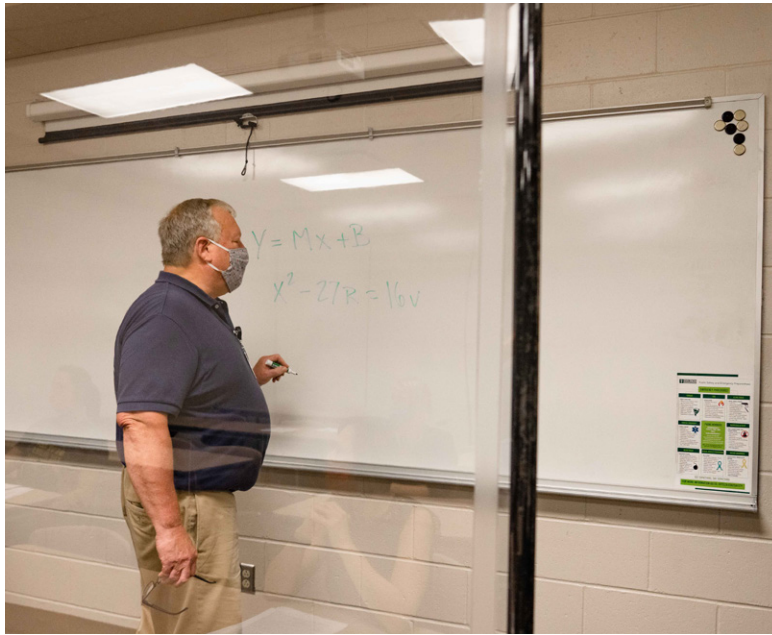

SMALL teachers desk, guidance counselor, and office

MAXIMUM PROTECTION Porta-Shield Connect™

Protect your staff!

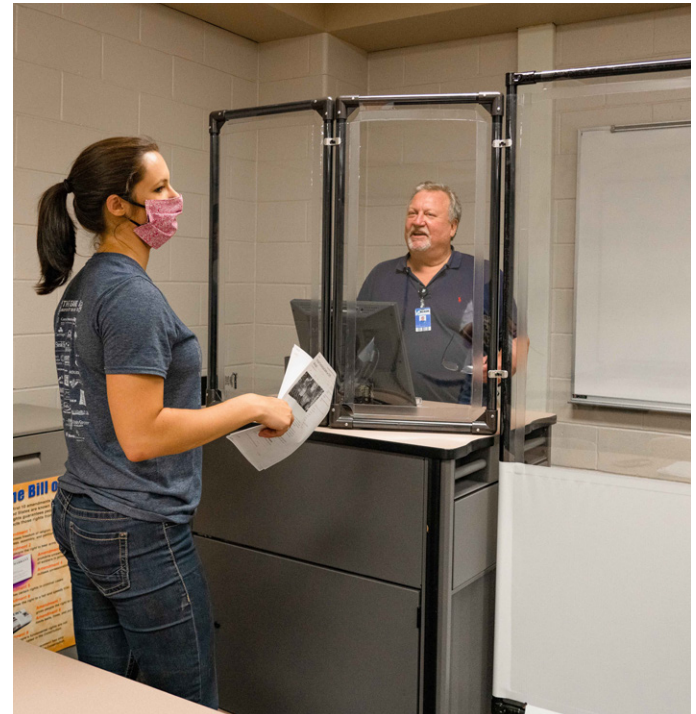

**1/3 of all
TEACHERS are
at high risk for
Coronavirus!***

*<https://www.usnews.com/news/education-news/articles/2020-05-01/one-third-of-teachers-are-at-higher-risk-for-coronavirus>

With no one knowing what will happen come August, keeping our kids, teachers, and staff healthy is our number one concern.

Teachers and Staff come in contact with dozens of kids per day. We need to have extra protection in the classrooms to prevent an outbreak of Covid-19.

A simple solution such as the Port-Shield can protect so many families, schools and communities.

Porta-Shield™ LARGE

Do you need an extra wall to provide more separation? Porta-Shield was designed with you in mind. Featuring a clear vinyl barrier that allows you to feel safe without feeling isolated.

Porta-Shield comes in a variety of sizes to ensure that you have the best divider for your space. Our 6'6" tall Porta-Shields range from 2' wide to 10' wide. Large Porta-Shields are designed to sit on the ground and create barriers for lines, hallways and anything in between!

Porta-Shield Dividers feature a clear vinyl with pockets on all four sides. Securing the vinyl to the steel frame attached along with the sturdy base plates keeps the divider from tipping over. Base plates are designed to overlap so the barriers are seamless when aligned with one another. Along with taking up a minimum amount of room. This virtually break-proof design will not crack, split or chip making one of the top sellers on the market.

FEATURES & BENEFITS:

- Made in U.S.A.
- Easy to clean
- Sturdy
- Lightweight barrier
- Clear Vinyl
- Economical
- Designed to create a safe & healthy environment
- 8" Leg extension available to create pass through on all small Porta-Shields

HALLWAY DIVIDERS

Featuring “NO TRIP” and Connect-able Base Plates

- Sturdy
- Economical
- Sizes from 6'6" x 2' - 6'6" x 10'
- Made in U.S.A.
- Easy to clean
- Lightweight barrier
- Clear Vinyl
- Create a safe and healthy environment
- 8" Leg extension available to create pass through on all small Porta-Shields

A great option for dorms.

Featuring “NO TRIP” & Connect-able Base Plates

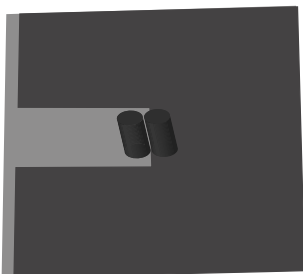

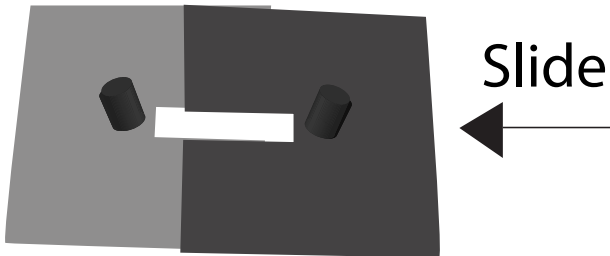

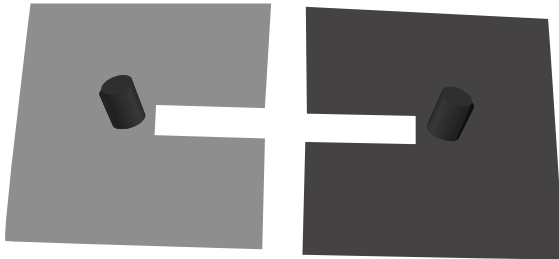

Porta-Shields™ .25" thick stacked bases are compact and close to the ground with minimal parts, reducing the risk of tripping causing an obstruction in the already narrow hallways.

These connector bases are made for you to overlap creating a virtually seamless wall.

We have engineered all of our safety barrier pieces not only to be the most user friendly but also reduce the accidents involved with unbalanced and poorly made shields.

Our vinyl screens are low glare, and do not crack, break or chip like other barrier alternatives such as plexiglass. If something should happen to the screen, purchasing a replacement screen is cheaper down the road then replacing the entire barrier.

Our base pates are engineered for stability. The different sizes depend on the size of the shield, giving our customers the reassurance that it will not tip over.

EXIT

Porta-Shield™ SMALL

Porta-Shield comes in a variety of sizes to ensure that you have the best divider for your space. Sizes ranging from 2' x 2' to 4' x 6'. Small Porta-Shields are designed to sit on desks, counters, tables and workspaces.

Porta-Shield Dividers feature a clear vinyl with pockets on all four sides. Securing the vinyl to the steel frame attached along with the sturdy base plates keeps the divider from tipping over. Base plates on the 3' and 4' dividers are designed to overlap so the barriers are seamless when aligned with one another. Along with taking up a minimum amount of room. This virtually break-proof design will not crack, split or chip making one of the top sellers on the market.

PORTA-SHIELD CONNECT™ FEATURES & BENEFITS:

- Customizable to your needs
- Made in U.S.A.
- Easy to clean
- Sturdy
- Lightweight barrier
- Clear Vinyl
- Economical
- Designed to create a safe & healthy environment

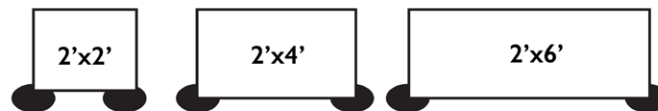

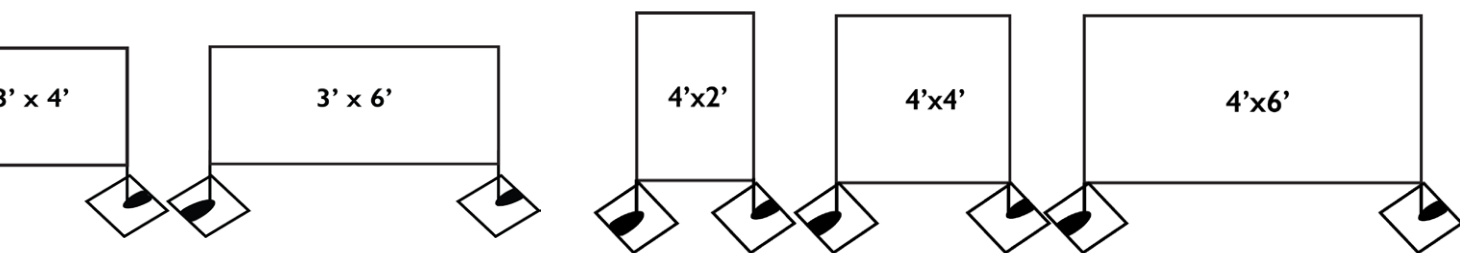

Separation without feeling isolated!

Small Porta-Shields make the perfect barrier between teacher and students. Crystal clear and very low glare helps kids adjust to the "new normal". Leg extensions can also be purchased creating the perfect pass through.

- Easy to clean
- Sturdy
- Lightweight barrier
- Clear Vinyl
- Economical
- Designed to create a safe

6' Tables

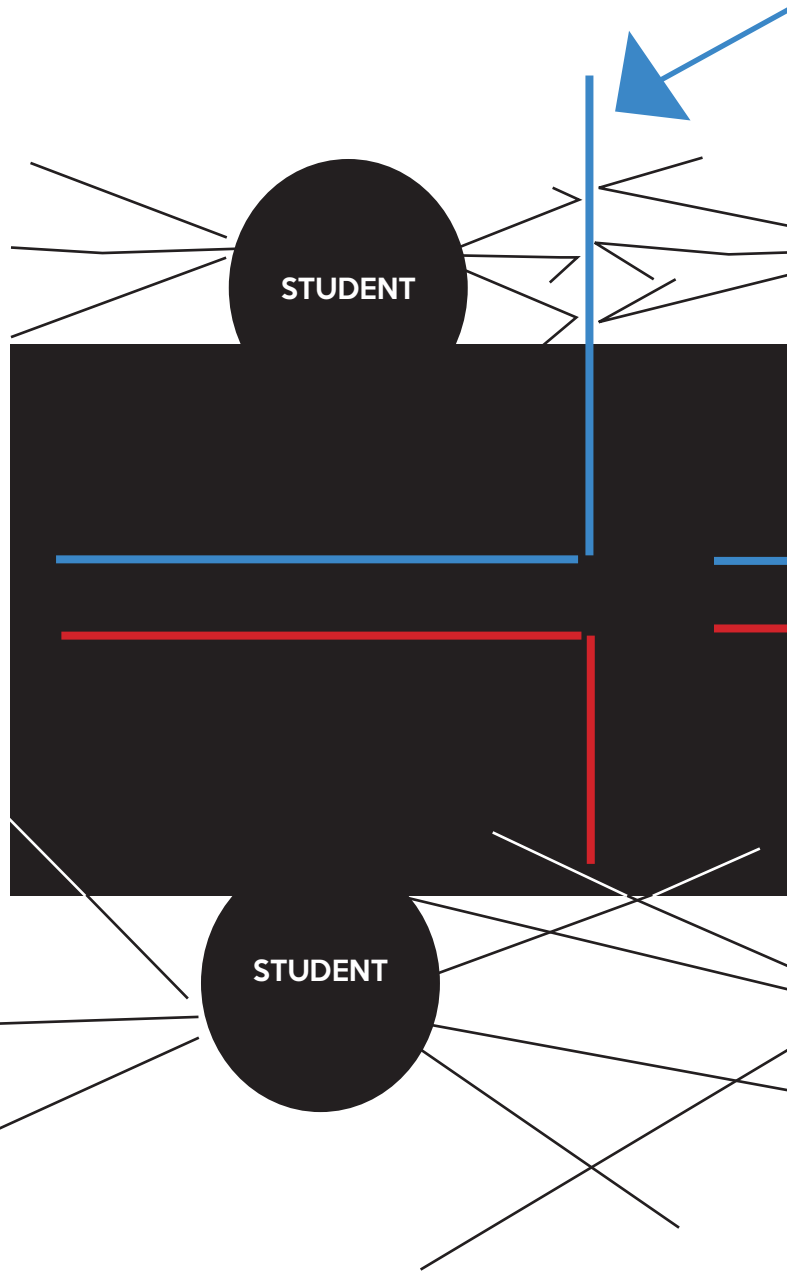

Protection from the person next to you...

It seems like some schools are protecting their computers and desk more than their students.

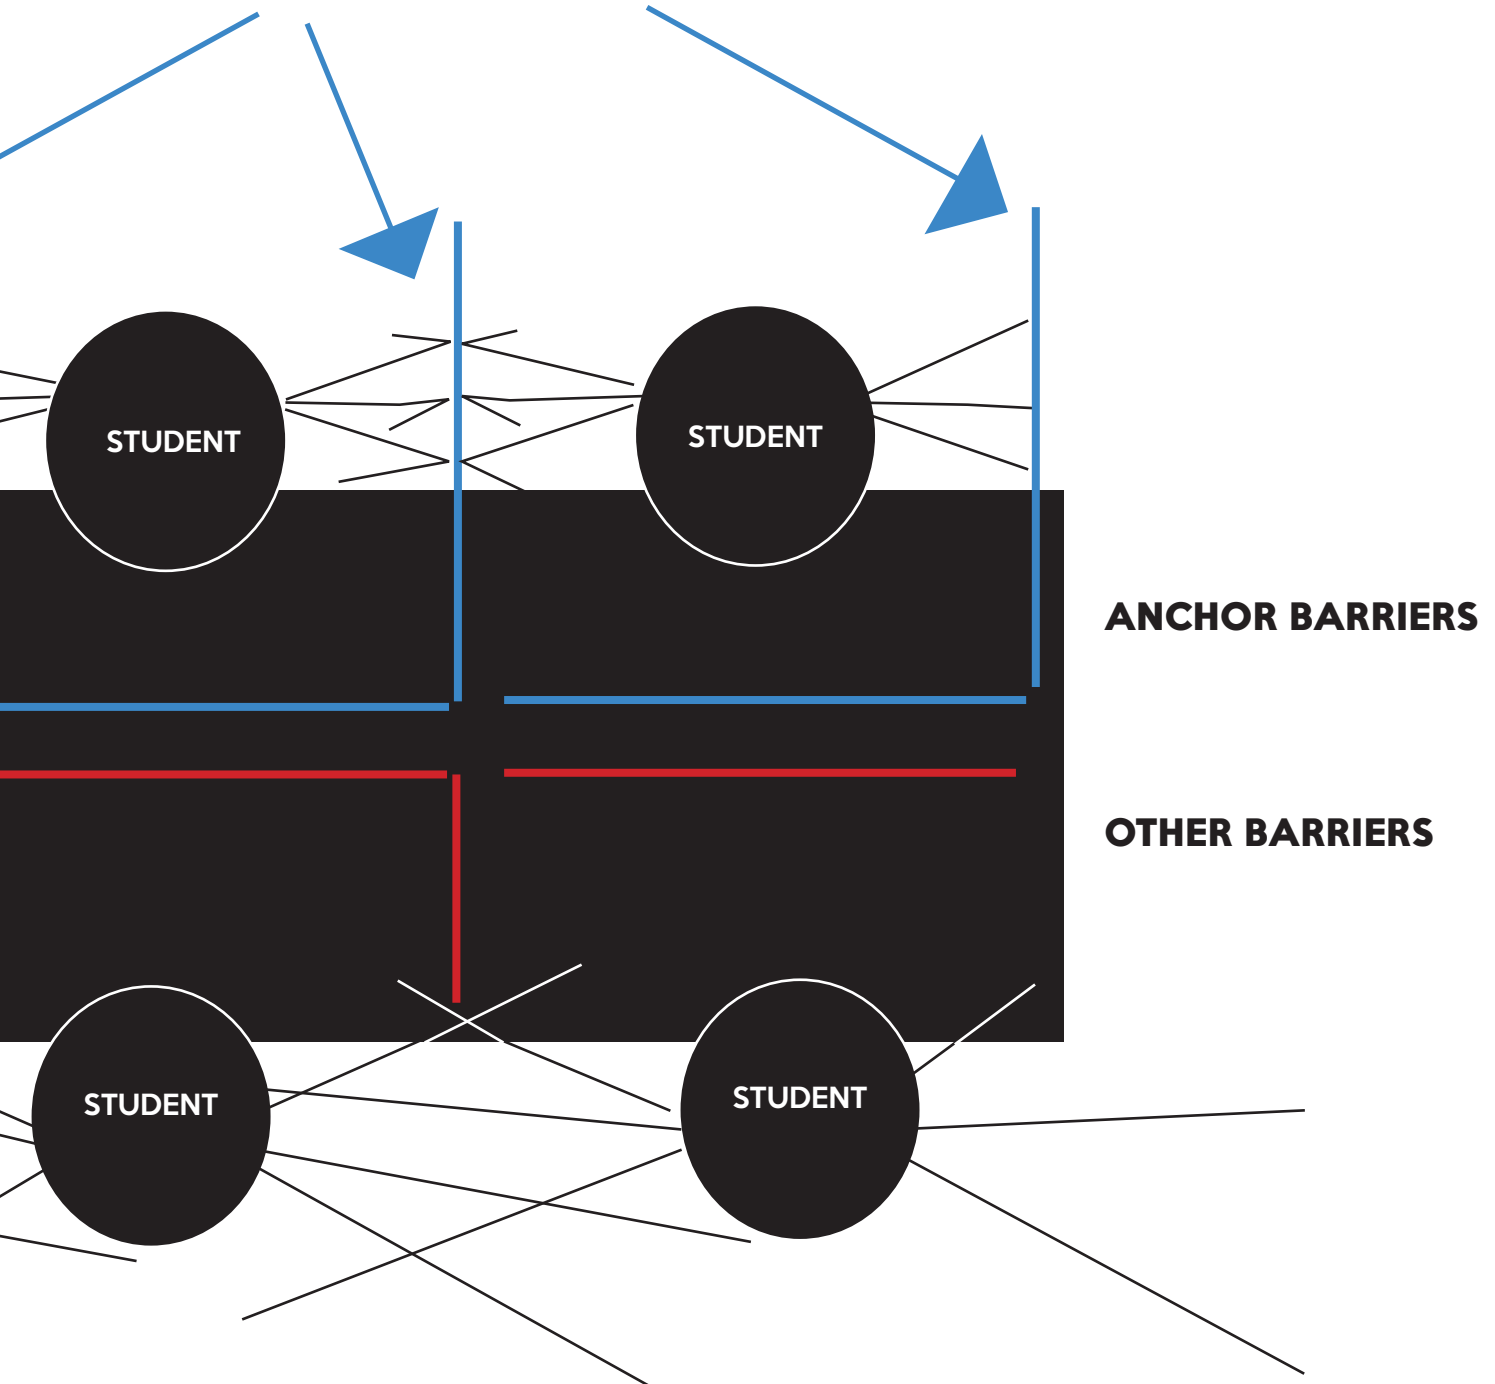

Notice: When you are at a desk, you turn your head left or right to talk to your neighbor.

Using the Connect system you can utilize your space that would otherwise be left empty. When six foot separation isn't possible, install a barrier.

This is the area that needs a barrier.

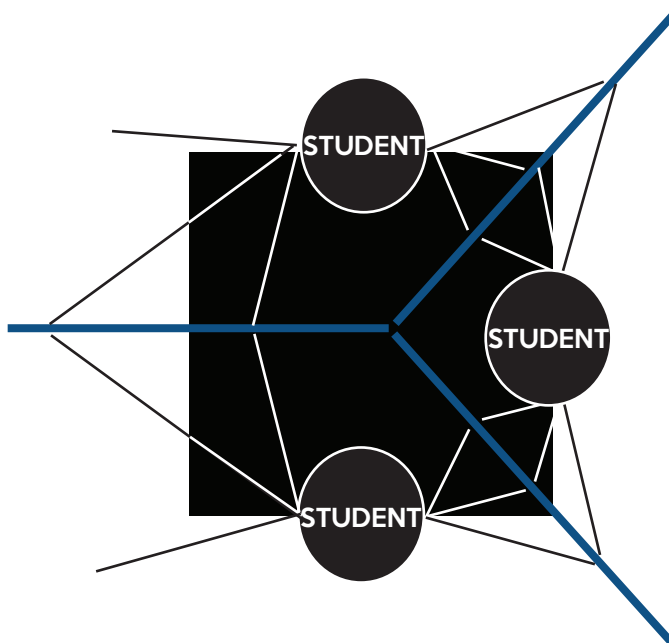

Protection where it is needed most!

Glare vs. Low / No Glare

OTHERS

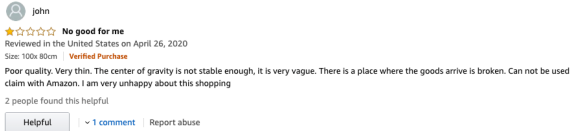

OURS

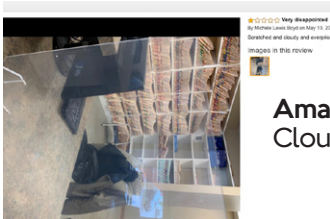

Plexiglass vs. Clear Vinyl

Plexiglass

- Higher shipping cost
- Rigid edges
- Likely to chip
- Shows scratches easily
- Bases can cause tripping hazards
- Not readily available
- Likely to crack and split if holes are drilled
- Turn yellow in the sun (styrene, PETG, and polycarbonate)

Amazon Review: "Poor quality. Very thin. The center of gravity is not stable enough, it is very vague. There is a place where the goods arrive is broken. Can not be used normally, I want to make a claim with Amazon. I am very unhappy about this shopping"

Porta-Shield™

- Maximum protection
- Sturdy base
- Connect to make seamless
- Economical
- Affordable shipping
- Low glare
- Will not break / crack
- In stock
- Made in USA
- Replacement screens sold in rare case it needs replaced
